The News of Business

Houses which specialize in commercial paper experienced little difficulty in disposing of their offerings yesterday. The demand for choice paper is excellent, they report, and the market is absorbing readily practically all of the paper of the better known companies at 5½ to 5½ per cent. Especially prime bills are moving at 5 per vent, but such transactions are the exception. The general market appears to be established at 5½ to 5½ per cent, with a tendency toward increasing case by reason of the increasing competition among banks for paper.

Action to remedy defects of the dealers as soon as the strike of the steel workers is settled. Many business by reason of the increasing competition among banks for paper.

A substantial increase in the supply of paper is predicted by the dealers as soon as the strike of the steel workers is settled. quoted at 4 7-16 per cent, eligible non-member bank bills at 41/2 and incligible bank bills at 6 per cent.

METALS—Shortage of Steel Products Not Imminent

Producers regard the steel situation as distinctly improved. Production is increasing at Pittsburgh as the transfer of faithful employes to new departments proceeds, and is reported to have attained 75 per cent of last week's output. Reports from other Pennsylvania centres are encouraging. The Chicago field is practically the only count of the Jewish holidays.

Many of the jobbers will be closed for the remainder of the week on account of the Jewish holidays.
